Dear Mr. Burvainis:

I am writing you on behalf of AE Biofuels to state support of the proposed natural gas line being proposed by Nebraska Resource Company by docket number. NG-0051 / PI 130. The state of Nebraska seriously needs to consider this project to help alleviate the constraints in some regions for natural gas capacity which would add to the economic development in the state from new businesses. This pipeline will directly benefit our proposed plant in Sutton Nebraska. Your approval of this project would be greatly appreciated.

Sincerely

Dale Brandstetter
Director of Operations
